

# Mozo Experts Choice Awards **Pet Insurance 2020**

Methodology Report  
August 2020

# Mozo Experts Choice Awards Pet Insurance 2020

Every day, Mozo keeps track of thousands of products in banking, insurance and energy. We use our knowledge and experience to identify those products that offer great value or market-leading features, and we recognise them with these awards.

- For product providers, it's a third-party endorsement of their product.
- For consumers, it's a sign that a product is among the leaders and is worthy of consideration.

Our approach to insurance awards is to seek out and reward:

## Exceptional Value

Insurance that's among the best-priced for the main features it offers, based on a comparison of prices for selected customer scenarios.

## Exceptional Quality

Insurance cover that leads the market in the generosity of additional benefits and flexibility of options - irrespective of price.

Not all customers are looking for the same thing, and different products have different strengths. We think it's important to show why a product has been awarded.

# Pet Insurance - 2020 Winners

## Pet Insurance Provider Of The Year

The judges chose Pet Insurance Australia as our Pet Insurance Provider of the Year for the second year running. They not only took out two Exceptional Value awards, but were the national insurer that scored strongest across all of the categories assessed.

### **Pet Insurance Australia**

## Exceptional Value Accident Cover Pet Insurance

As policies can provide varying levels of benefit if you need to make a claim, the judges assessed how much potential benefit could be delivered for each dollar spent on premiums.

Two products stood out for being competitively priced across a range of different quotes.

**1300 Insurance**

Accident Protect

**Bupa**

Basic

## Exceptional Value Accident & Illness Pet Insurance

To find the best value Accident & Illness policies insurance the judges considered how each product that met our minimum criteria ranked for a range of quotes to find those that offered the best value overall.

In our assessment, two products stood out for their competitive pricing without sacrificing the cover on offer.

	<b>Pet Insurance Australia</b>	Comprehensive
	<b>RAC</b>	Pet Insurance

## Exceptional Value Comprehensive Pet Insurance

Once again the judges applied a minimum criteria then gathered a range of quotes to identify the policies that offered the best overall value for both cats and dogs.

Our assessment methodology identified two comprehensive products that tend to be the most affordable, and that we think are worthy of being on anyone's shortlist.

	<b>Pet Insurance Australia</b>	Major Medical Cover
	<b>RAC</b>	Pet Insurance

## Exceptional Quality Pet Insurance

For the Quality assessment the judges considered how 133 policies from 31 insurers fared when scored for 14 factors with those we believe are more important to consumers given a higher weighting. The five winners below scored better than the rest due to their more generous benefits.

**Bow Wow Meow**

Ultimate Care

**Bupa**

Ultimate

**Petcover**

Superior

**Petplan**

Ultimate

**Trupanion**

Pet Insurance

# How do we judge the winners?

## Exceptional Value

Our assessment of Value is based on finding the most affordable policies for a given level of cover.

To compare pricing we gathered a range of online quotes covering a range of ages for both cats and dogs. Breed is a significant pricing factor for dogs so after examining the pricing variations for a wide range of breeds we gathered quotes for several common breeds at different ages, to cover an indicative pricing spread for each insurer.

The amount of money an insurer will pay out on any claim depends on their **benefit percentage** and on an **annual benefit limit** expressed as a dollar figure. Policies may also have a per-claim **excess**. When comparing prices of pet insurance, it is important to allow for these different limits. In assessing the value of policies for these awards, the judges:

- Collected quotes assuming a \$0 excess\*.
- Adjusted the quoted premiums according to the benefit percentage, so that prices were compared on a consistent level of benefits. We divided the cost of the insurance by the benefit percentage to find the ratio of price to benefit for each policy.
- Excluded policies where the annual benefit limit was significantly lower than the rest of the market. Policies need to offer at least \$6,000 of annual cover to be eligible for Exceptional Value awards in the Accident & Illness and Comprehensive categories.

- Excluded policies where sub-limits were imposed for each condition as they restricted the benefits available to policyholders.

Once each quote had been adjusted to allow for different benefit percentages, they were ranked in order from cheapest to most expensive for each of the different breeds and ages. Then we looked at how often each insurer was among the cheapest, by awarding points based on their ranking in each quote scenario. This methodology rewards the insurers who are most likely to be good value for the most people.

Policies must be among the best-ranked for both dogs and cats, to be awarded.

\*A small number of policies do not offer a \$0 excess option. For these, a separate quote comparison was conducted, comparing them to the products that had been shortlisted above but re-pricing them all to a standard excess level. In this additional comparison, none of these mandatory-excess policies were as competitively priced as those we had already shortlisted and hence they did not warrant an award.

## Exceptional Quality

Our Quality awards are based on the generosity of benefits and flexibility included in the insurance policy. They do not take account of price.

To determine which insurers offer the best cover on their policy, we looked for the product with the best offering across a range of areas. The key factors that differentiate the best from the rest is as follows:

- Benefit percentage
- Annual benefit limit
- Ability to vary excess
- Dental cover
- CT and MRI scans

- Cruciate Ligament treatment
- Hip surgery and replacement
- Tick paralysis
- Emergency boarding when you are in hospital
- Routine Care
- Legal liability
- Theft or straying

Any policy that did not offer at least a \$12,000 annual benefit limit was excluded from consideration for this category. Where the benefits for dogs and cats differed, both options had to qualify in order for the policy to win.

We relied on product information in each insurer's Product Disclosure Statements, and on their websites, to assess cover and benefits.

## Pet Insurance Provider of the Year

In addition to the winners in the Exceptional Value and Exceptional Quality categories, we chose one insurer as Pet Insurance Provider of the Year.

To decide "Of the Year" awards, we examine providers who achieved awards across multiple categories and determine which has demonstrated the best result in terms of depth and breadth of awards. We may look at the number of awards, the relative importance of the categories in which the awards were won, and the relative difference in price or cover within award categories (including categories where they may not have won awards).

In 2020 for Pet Insurance one nationally available insurer stood out from the rest, achieving awards in two categories and scoring strongly in the remaining categories: Pet Insurance Australia.

# What products do we consider?

We collected pricing and cover information from 28 different insurers. The list of providers is in Appendix 1.

The information collection was conducted in July 2020. To be considered for inclusion in these awards all information considered must be readily available on the insurer's website and the policy available to the general public without being a previously established member or customer.

Products are considered and awards are made irrespective of a product provider's commercial relationship with Mozo. We aim to include most providers in the market in the Mozo Experts Choice Awards. However, not every product on the market will be included in our review.

# How we manage conflicts of interest

Mozo Experts Choice Awards are awarded irrespective of a product provider's commercial relationship with Mozo.

The Awards are based on objective verifiable facts and analysis wherever possible, and any assumptions made are set out in this report. Mozo's research team analyses product data and determines the winners in each Mozo Experts Choice category without reference to Mozo's sales or commercial functions.

Companies do not pay to enter the Mozo Experts Choice Awards. Should a winning product or service wish to use the Mozo Experts Choice Awards badges in their own marketing activities, Mozo charges them a licence fee.

## About Mozo

Mozo provides a comparison service with the goal of helping consumers to make their own financial decisions and save money. Mozo offers consumers a comprehensive product comparison service across the retail banking market, general insurance, life insurance, business banking, energy and more.

Hundreds of thousands of Australians a month use Mozo's comparison service. Mozo's comparison technology and expertise has been used by some of Australia's largest online publishers.

Mozo holds an Australian Financial Services Licence and an Australian Credit Licence. Mozo's management team have experience in consumer credit and financial services in a variety of roles from executive management, marketing, actuarial services and technology. Mozo's team are often called upon to provide expert media commentary in relation to the product areas they cover.

Our Mozo Experts Choice Awards analysis is overseen by AJ Duncanson, Mozo's Data Director, and Peter Marshall, Research Manager. AJ is a data scientist and actuary and has worked in financial services and product comparison for over 30 years. Peter has worked for a wide range of Australian banks and product comparison for the past 36 years. Both AJ and Peter act as Responsible Manager on Mozo's Australian Financial Service Licence and Australian Credit Licence.
